

How to get access to ZoneMap:

Open the page: <https://core.runopt.co/zoning-map>

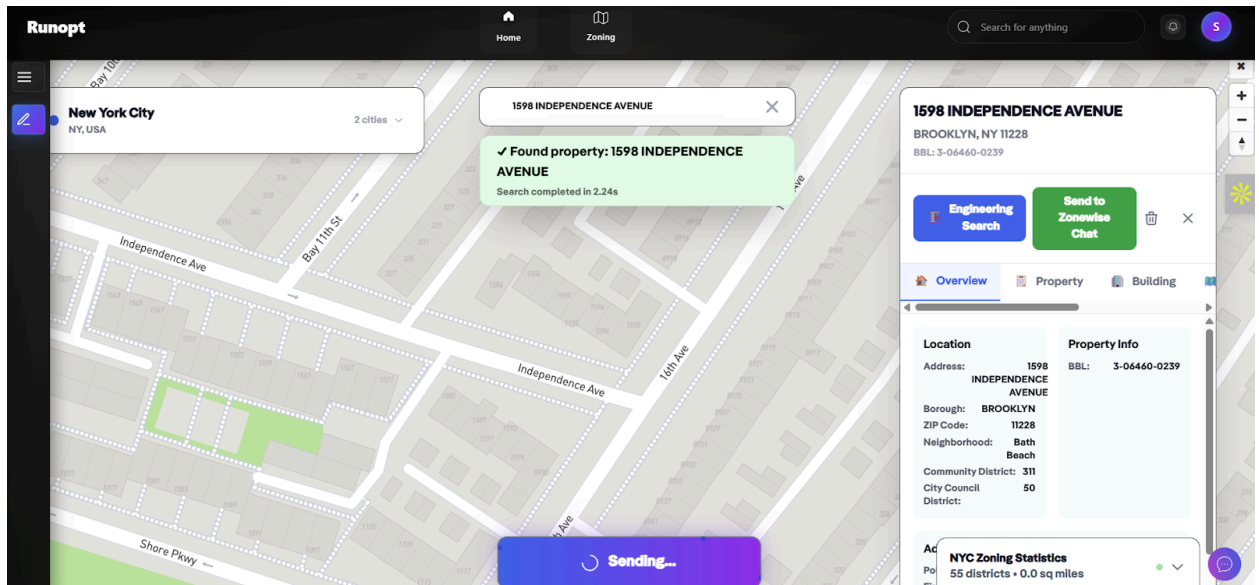

1. Select "New York"

2. Then you could find the related info of the property

3. Click 'Send to Zonewise Chat' to send the property information to the chatbot, where our AI assistant can provide further help

- After sending all the information to the chatbot, it will automatically analyze the property's details. For NYC, the zoning ordinance is already fetched from the dataset, and users can continue asking questions related to this property.
